 "Build Your Business While We Build BRT"

### About the City of Oakland Business Sustainability Program

The Oakland Business Sustainability Program (BSP) offers a comprehensive, integrated mix of services to support businesses along the East Bay Bus Rapid Transit (BRT) route.

The technical assistance part of the BSP is provided by Main Street Launch. It includes free one-on-one business consulting and workshops to help businesses develop growth strategies before, during, and after BRT construction.

Make the most of the new BRT by using this program to reduce construction impacts and grow your business.

### More about BRT

Bus Rapid Transit (BRT) is a new bus system that employs a combination of innovative technologies to create a safer, faster, and more reliable transit system. BRT will include 38 new stations that will feature off-board fare collection, weather protection, security lighting and cameras, and public art.

The 9.5 mile BRT Route extends from the BART station at 19th and Broadway in Oakland, continues along International Boulevard, and ends at the San Leandro BART station.

The BRT project will also:

- Renew the roadway
- Install new traffic signals and street lights
- Increase pedestrian access and safety
- Promote better bicycle movement.

Together, these features will contribute to a healthier business climate and more livable communities.
